I2T SME - Global (I2T S|G), LLC Strategic Capabilities Statement - Tech. Consulting

"TAILORED ACCURACY & EXPERTISE"

Information Tech. (IT) to Info. Systems (IS) Design, Cybersecurity, Syst. Engineering, Aviation & Technical Intel Discipline Focused Subj. Matter Experts (SME) In Global Security: Managing the Technology Enterprise Risk Management as major theme of the Executive Portfolio Consulting

VISION STATEMENT: I2T SME - Global, LLC (I2T S | G), a "World Class Subject Matter Experts (SME) offers decades of superior Advanced Technical Engineering & Technology Management (TM) w/ seasoned core of proven, dedicated, & focused military leaders; a "skillful Group employs Security, Cyber, Data & People-Process (SCDP) by influenced Best Practices (BP)." Our organization's exposure leverages & offers unparalleled customer understanding of the Lean Six Sigma body of Mgt. Expertise/Skill Scientific, Engineering & Technical Forensics Teams (SETFT): Focusing on Info. Tech (IT)/ Systems (IS) with complete advanced knowledge of Security related tasks to Force Protection, Syst. Eng., Aviation, Electronic Warfare (EW), Electromagnetic Spectrum (ES), Cybersecurity, Telecommunications, Research & Development to Intel - Data Knowledge Mgt. In our advanced consulting. Resulting in global technology and systems development w/ advanced concepts & tailored R&D to Agile strategic plans. I2T S | G - Focuses on all driven, technically oriented skills in key leadership values, engagement of critical, insightful empirical data, its technology, security advice, & milestones; all by achieving efficiency, defined results towards Civil/ Comm., Defense, & in Academia arenas w/ Cyber, 5G Net Centricity. Utilizing masterful software suites of Cloud Computing, delivering vital, influenced & valued Executive Business & Ethical Performance Skills (EBEPS). Market, Define & employ KPIs & Requirements based on a client business KPI theme.

TECHNOLOGY INTEGRATION PLAN & OPERATIONS

MISSION STATEMENT: I2T S | G leverages integrity defined by excellence in talent, & communicative leadership through a process of effective client-focused commitments built on expertise, decades of operational experience showcasing advanced people diversity, management, and skilled requirements. I2T S | G creates tailored, secure yielded adv. Critical assessment methodologies, tackling the most complex business & tech problems. Objectively tailoring & solving user requirements, CMMC expanded capabilities using superior talent & business acumen; as an executive presence of detailed analytics, Proj. TechSec Cloud & Product Mgt., from Civil, Commercial, & US Gov., to DoD plans.

SECURITY & CMMC ASSESSMENTS

OBJECTIVES: I2T S | G overall key business philosophies to strategize capabilities, to engage world-class sets of Subject Matter Experts (SMEs) High Tech Sec. Strategies in IT/IS & Intel Consulting models build a framework think tank of elite technical problem-solving across DOD and the Commercial sectors of Technology Technical ServiceNow Innovation. It is delivering an innovative core practice of superior, cutting-edge products & advanced tech services; & addressing advanced critical challenges with fully comprehensive consulting responsive requirements to a quality business model plan. I2T S | G represents three echoed imperative ethical principles:1st Reflect direct support of Service Quality Protection & 2nd In-Depth defense addressing areas of Info. Tech. (IT); Info. Systems Sec. (IS) & 3rd Cybersecurity combined Intel Opns w /multi-Int. Applying policies w/ in the Federal Acquisition Regulations (FAR) guidelines}, Advanced Force Protection & vital technology applications.

5G + TECHNOLOGY INNOVATION & TECHNOLOGY

CORE COMPETENCIES & EXPERTISE:

- ACQ. Level III - Business Strategies & Computing Solutions
- Adv. In-Depth Network Syst. Engineering & Monitoring
- Aerospace & Satellite Comm. (SATCOM)
- Approval-To-Operate (ATO) Exec. Certif.
- Artificial Intel (AI) - Core to Edge Advanced High Capacity Computing w/ Geospatial Data & Cloud Intel Info.
- Aviation - Type Certified Comm. & Mil. Pilots
- Big Data Intel (BDI) Strategic Planning (SP)
- Business Performance Mgt. Data Benchmarks
- Business Intel (BI): Data Mining Syst. Strategic Marketing
- Comm.& Fede DELL OEM Computer Sales, Service Design
- Combat Search & Rescue (CSAR) / Pers. Recovery (PR)
- Comm: Tech. Policy Mgt. (Global Consulting)
- Consulting and Advisory Engagements
- Cybersecurity Red Team Analysis, T&E & Exercises
- Cyber Defensive & Offensive Ethical Hacking
- Cyber In-Depth Forensics of Data Compliance/Invest.
- Data Sciences (Advanced Statistics)/ Data Loss Prev.
- Databasing Data Integrity Qualitative/Quantitatively
- Digital IT Solutions & Dig. Transformation
- Expert Data Perf./Knowledge Mgt. & Computing
- Force Protect / Private Security Details (PSD) Armed
- Forensic Syst. Cyber w/ Law Enforcement
- Government Industry & Change Management
- Implementation w/ Systems Sec. Remediation
- Info. Mgt. Element (IME) Certified
- Info. Systems Security (ISS)/Info. Technology (IT)
- Integrated Broadcast Service (IBS) Info. IME - SMEs
- Integrated Strategic Analytics R&D
- Intel (SIGINT Military Signal Comms) SME
- Leadership & Strategy: LeanSixSigma/SCRUM
- Mgt. Consulting Research & Dev. (R&D)
- Military Operations Planner's
- Network Systems Sec. - Test & Evaluations
- One-of-a-Kind Virtualization Tech. Solutions
- Primary, Plans & Performance (3PPP) Comm
- Program & Project Management (P-PM)
- Quantitative & Qualitative Analytics
- SATCOM Data Del. Syst. w/Analytics
- Soc. Media Tech.- Data Sec. Design Solutions
- Tech Exploitation of National Cap. (TENCAP)
- Tech. Syst. Site Install., Conf. Network Eng.
- Tech Cyber Syst. Test/Eval Simulation Training
- Telecommunications & 5G (Advanced AI)

SYSTEMS /CLOUD SEC. ENGINEERING

BUSINESS ENABLEMENT

CERTIFICATIONS & PROFESSIONAL TRAINING:

- Capabilities Spt. to Tactical Air & Ground Threat JSOC Ops
- Cert. ACAS, NESSUS, ForeScout, HBSS/Splunk
- Cert. Ent. Defender (GCED)
- Cert. Mgt. P-Shell, MS-Off., Linux Server Platforms
- Certified Acquisition Mgt. Tm Training (AMTT)
- Certified Best Value Source Selection (BVSS)
- Certified Business Financial Management (BFM)
- Certified Command, Control, Communications, C4ISR
- Certified Contracting Off. Tech. Representative (COTR)
- Certified Earned Value Mgt.
- Certified Ethical Hacking (CEH)
- Certified Exec. NRO Prog. Mgt. Crs. (ENPMC)
- Certified Incident Handler (GCIH)
- Certified Info. Syst. Sec. Professional (CISSP)
- Certified Intrusion Analyst (GCIA)
- Certified Joint DOD Firepower & Targeting
- Certified Leading the Acquisition Team
- Certified Microsoft Server 2008, 2012R2 & 2016 SCCM, SCOM, & Exch.) Dell Power Vault
- Certified Mission Command Systems, Cmd
- Certified NRO Congressional Budget Process (NCBP)
- Certified NRO Program Management. Crs. (NPMC) & the Conflicts of Interest (OCI)
- Certified NRO Use of Adv. & Asst. Org.
- Certified Penetration Tester (GPEN)
- Certified Perimeter Protect. Analyst (GPPA)
- Certified Windows Sec. Admin. (GCWN)
- Cmd Post of the Future (CPOF), NetApp-SAN/NAS
- Command, Control, Comms. Computers, Cyber, Intel, Surveillance & Recon. (C5ISR)
- Comms. Strategy Planner & Lean Six Sigma Cert.
- Continuous Serv. Improvement Act. (CSI)
- Palantir, DCCGS, GCCS Expertise-Syst. TCPED Trnd
- Digital Network Intel (DNI) Analysis Tracking
- GIAC Security Essentials Cert. (GSEC)
- Info. Tech. Infrastructure Library Lifecycle Mgt.
- North Atlantic Treaty Org (NATO) Staff Off.
- NRO ACE Level III Acquisition Cert. - ACQ. Operation Engagements & Test Eval. Strategies
- Project Management Professional (PMP) Trained
- Service Design, Operations & Strategy
- Service Transitions/ Benchmark Perf. SME's
- Space, Ground & Telecom Segment Integrated
- Sr. NSA Exec. Adv. Cryptologic Skills CY500
- Systems and Network Auditor (GSNA)
- Threat Analytic Deterrence Planning SME
- VMware/vSphere, Cisco Switch, Routing, CallMgr.
- Weapons of Mass Destruction (WMD) Tech
- Strategic Analysis & Opns Target Assessments

NETWORK SECURITY MONITORING, RISK MGT. & FORCE PROTECTION

DIFFERENTIATOR & BUSINESS CASE: I2T S | G uphold & always will be consistent in delivering; robust but strategic marketing, technically focused, rich & detailed Systems Sec. Admin. (S-SA) development of integrated platforms solutions & communications (Infrastructure, Messages & Securing Data Content & Knowledge). Addressing multi-discipline duties across broad high-tech service areas in Geospatial related Cyber Simulations, Radio Access Networks, Systems Mission Planning combining meticulous cloud execution to the last commercial & tactical user exploitation. Received/Transmitted Rx/Tx segment PEN Test via Cybersecurity, Analytics, & broadened the C5I spectrum to Signals Intelligence SIGINT & Geospatial Imagery Intel (GEOINT). We were enhancing vital near real-time Info. Tech. (IT), Info. Systems Sec. (ISS), Ethical Hacking, Electronic Warfare (EW) delivering National Technical Means (NTM), incl. Of Tactical Air Intel. Surveillance and Reconnaissance (ISR). I2T S | G serves to be that linkage to a 1st Trusted Consulting Defense Encryption key w/ invaluable Security for all Civil/Defense Markets; with expectations of the entire Enterprise Mgt., Governance, Risk Commitment & Obligations: To Endpoint Security, Confidentiality, Integrity & the Availability (CIA) models. Respected Zero Trust applications within the Governance principles through sales to strategies executed. Collectively, as Military Vets, we have an "HONOR in the Business lead with the Highest Ethics & Responsible Equality in Leadership, Program & Project Mgt. (P-PM) practices; a leader in the profession/industry standards; Gov. Practices to any Clients!"
